

# BYMAT® 1150 RS

Ultra fast cleaning of welds due to high-frequency technology.

## The advantages of the 1150 RS at a glance:

- 4 function machine
- Cleaning with a high-performance brush
- Polishing with a high-performance brush
- Embossing dark
- Embossing light (similar to an engraving)
- Large colour display in multiple languages
- Menu displays voltage and correct electrolyte
- Quick change bayonet fittings for the tools
- All cleaning tools are constructed from Stainless steel to prevent corrosion
- Efficiently cleans WIG/TIG and MIG/MAG welds in seconds to a high quality finish
- Environmentally friendly electrolytes for safe use in food industry
- Including current control from 40 - 200 A.
- Including connection option for an external electrolyte feed pump

## Accessory, Item No.: 1145 ES

consisting of:

- 1x 1024 KO Aluminum case
- 2x 2500 WB Wide mouth container, 500 ml
- 1x 5024 KR Red cable 3 m incl. bayonet and ground terminal
- 1x 5024 KS Black cable 3 m incl. bayonet lock coupling and connector
- 1x 6026 ST High-performance brush
- 1x 2040 DC Electrolyte "C+" for polishing, 1 Liter
- 1x 2030 DH Electrolyte „A“ for cleaning, 1 Liter
- 1x 2101 ET Electrolyte "ET" for dark embossing, 100 ml
- 1x 2170 EN Elektrolyt "EN" for light embossing, 100 ml
- 1x 5024 AK Adapter for Premiumline
- 1x 1206 SF Cleaning- and embossingfelts, bag with 20 pc.

Art.-No.: 1150 RS

### Technical data

### 1150 RS

Voltage primary	230 V 50-60 HZ
Voltage secondary	10 V AC / 14 V DC
Power	2500 VA / 200 A
Dimensions (LxWxH)	420 x 215 x 350 mm
Weight	23,5 kg
